

Project Management made **easy** with Microsoft 365

For more
information:

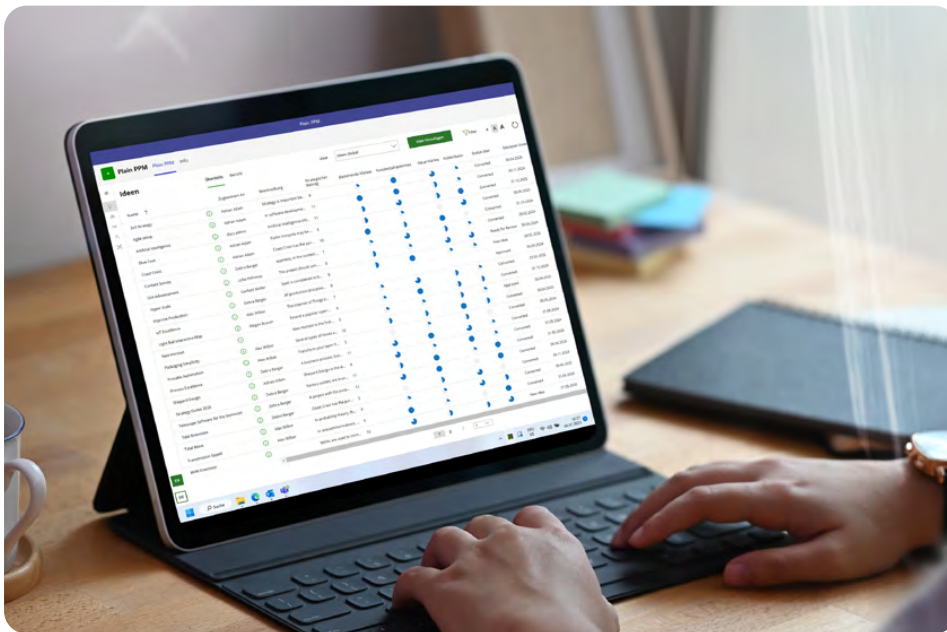

Why PlainPPM?

PlainPPM is your solution for up-to-date project management based on Microsoft 365.

- Create transparency and visibility for your project portfolio.
- Inspire your employees with a simple and intuitive user experience.
- Manage your projects along clear processes — from the idea to project closure.
- Optimize your resource planning from a line manager and project perspective.
- Make best use of the opportunities of your Microsoft 365 environment.
- Collaborate effectively by using Microsoft Teams.
- Focus on flexible and extensible technologies.
- Work with classic, agile or hybrid methodologies.

What can PlainPPM do?

PlainPPM improves your multi & single project management along the end-to-end project life cycle.

Aggregate your portfolio and program information based on PlainPPM. Use your project information to ensure proactive planning and steering of the project landscape.

Ensure success on the single project layer by providing powerful tools for waterfall, agile or hybrid methodologies.

PlainPPM modules

PlainPPM provides answers to the following questions:

- **Idea Management**
Use your organization's creativity and experience
- **Multi-Project Management**
Keep track of your project landscape
- **Resource Management**
Proactive and best-in-class planning of resource assignments
- **Project Management**
Clear objectives and transparency along the end-to-end project life cycle
- **Risk Management**
Reveal project risks and mitigate the impact
- **Collaboration**
Integrate project management with collaboration capabilities in Microsoft Teams
- **BI & Reporting**
Improve analytics and decision-making for all project management topics
- **Time Tracking**
Time tracking to quantify project progress and to measure project success

How do I get PlainPPM?

Contact us to get PlainPPM implemented in four steps.

1

Analysis

Together with you, we identify and prioritize methodology, processes and organizational requirements.

2

Design

Based on the requirements we create your PlainPPM design and implement all requested changes. After deployment you can test the pilot.

3

Review

Use your pilot to gather first experience with PlainPPM. Document your feedback, which we later integrate into your customized PlainPPM solution.

4

Go Live

We support all PlainPPM users by providing trainings, documentation and instant go live support.

Prerequisites for PlainPPM

You have Microsoft or Office 365 licenses in place?
Then add the necessary Microsoft Power Platform licenses and you are good to go.

PlainPPM Support

Our support for PlainPPM does not end with your go live. We provide operational support as long as needed. Just identify your needs, select a suitable support model and make ongoing use of our PlainPPM expertise.

PlainPPM Costs

The PlainPPM usage fee is CHF 5 per user and month. This does not include Microsoft licenses. If you have any questions, please do not hesitate to contact us anytime.

Your Personal Contact

You have questions or need support? Please do not hesitate to contact us anytime. We are here to help.
